Wet and Cloudy
Weather Covers
Wide U.S. Areas
By THE ASSOCIATED PRESS

Wet and cloudy weather covered broad areas of the nation today after an outbreak of violent thunderstorms and tornadic winds in central sections.

The rain and cloudy weather

The rain and cloudy weather extended in areas of 26 states from Texas to Minnesota and from the central Rockies eastward to southern New England and the mid-Atlantic states.

Thunderstorms and showers

Thunderstorms and showers continued during the night and early morning in sections of the Midwest and parts of the southern Plains. A thunderstorm squall line moved eastward across southwest Missouri, setting off locally heavy rain and strong winds. Funnel clouds were reported near Joplin and Nevada. Strong winds lashed Greenfield, about 35 miles northwest of Springfield, Mo.

The Weather Bureau reported tornadoes hit widely separated areas Monday in Texas, Oklahoma, Kansas, Nebraska, Iowa and Missouri, causing property damage. No serious injuries were reported.

Coolest weather was in parts of New England with temperatures in the upper 20s in northern Maine. They ranged to the 70s along the Gulf Coast.

What John Calvin Did

For The United States

(Christian Economics)

By FRED G. CLARK and R. S. RIMANOCZY

American Economic Foundation, New York

By RALPH BRADFORD

(Mr. Bradford is a noted speaker, writer, and business organization consultant.)

The scene is a college chapel or auditorium. It is graduation day. The commencement address has been delivered and perfunctorily applauded. The time has come to present diplomas to the graduates. The Dean is poised ready to call off their names alphabetically, thus summoning them to the stage to receive the coveted "sheepskin" and traditional Presidential handshake. Fathers and mothers, brothers and sisters, uncles, cousins and aunts of the graduates come awake from their commencement torpor. The big moment has ar-

"Joseph Adams" The Dean's voice is sharp and clear, and young Mr. Adams steps briskly forward. As he reaches the dais. his hand already half out-stretched, he hears the President speak-

'Mr. Adams, you have successfully completed the required acaare preparing to award you the Master of Arts degree, with all the rights, privileges, and immunities, as well as the obligations and responsibilities, thereunto ap-

So far so good. The President has uttered that ancient formula hundreds, perhaps thousands of times before. Young Mr. Adams has heard those words at previous graduation exercises that he has attended. But now the President seems to go off on a tan-

"Only one step remains to be taken," he says "It is now time for the performance of your Publie Art

Young Mr. Adams looks startled What is this? Has something been added? Something unusual? Nothing like this was ever in the routine as he has heard it in the past. Has Prexy gone his nut or something? What does

But the grave voice of the President goes on I will state the beginning of the determination or initial proof of the thesis, and you may then take up the ar-

Mr. Adams blinks. Thesis? Argument? What the heck? ... the President goes into a kind of sing-song recital. Mentire quacunque de causa ignobile et sua clamat, et ferme ab omnibus praecipue Virtulem colenti bus conceditur. Quod si omnino fas esse possit. Deus comprobat. et si ille possit procare, non est

Joe Adams recognizes of course, that the Old Man is studied the languages of Caesarin fact, he has followed old Junus all over Europe by reading his Commentaries. But that was years ago - high school stuff. What's Prexy up to The Old Man is noted for a puckish hu mor, but this is carrying things

pretty far' "Now, Mr. Adams," the Presi dent continues, oblivious to Joe's confusion, "you may take it from there. This, as you know, will be Master's degree. You will, of course, have recognized the the sis which I have propounded. It is Number Ten in the Rubric of Ethics on today's calendar of disputations. This calendar, I may add, has according to custom been printed and distributed to the other candidates for graduation, and to all members of the

Dazed, Joe Adams looks out over the crowd, and sees that each of the several hundred persons present now holds in his hand a large sheet of paper nearly two feet square. While he is still trying to grasp what all this means, the President thrusts a similar broadside into his

"You have not seen this before. Joseph, because it would not be fair to you or the other candidates to have prior notice of the theses to be propounded. But you may now take a moment to look

Joe's bewildered glance encounters a closely printed page, headed viris preacellantissimis, and then trailing down into what seems to be a list of the faculty, expressed in Latin. Below all that, he identifies a number of headings, each with several appended sentences or statements. The headings are: Theses Grammaticae, Theses Rhetoricae, Theses Logicae and a number of others. One especially thrusts itself out at him, because of its several subheads. It is Theses Metaphysicae, and the subheads are De ente in genera, de Deo, and de mente humana

Joe looks up helplessly, but gets no aid or comfort from the President, who acts as though there were nothing at all unusual about these extraordinary proceedings, and goes calmly on with his instructions.

find the subject of your disputation as Number Ten under Theses Ethicae. For the benefit of any in the audience who may not know Latin - or who," he added dryly, have forgotten what they once learned, I will translate the substance of the thesis propounded. It reads as fol-

" To he for any reason whatever is ignoble and victous by its very nature. The thing itself cries out and is conceded by practically all who cultivate vir-

The President looks at Joe expectantly through the top lenses of his bifocals. "Very well now, Joseph, you may proceed to defend this thesis. Or if you prefer, you may attack it. When you have finished, other members of the class - and indeed, members of the audience, if they choosemay dispute your conclusions. If demic courses of study, and we so, you must then defend your position. All this, I need hardly

Young Mr Adams looks about wildly. The other graduates are equally bewildered. The audience is sturined and a little embarrased Clearly the old President. ong esteemed in the community, has suddenly gone off his rocker

A Standard Practice A preposterous episode? Yes, ndeed - one that is not likely to happen on any American campus this year or next. But sunose it did happen. How many of he graduates do you think would be able to execute the proposed Let this was standard routine

in the education of our not-so-remote forefathers. If you will change the name of Joe to Join and the year to 1743, you will find a certain young Mr. Adams. ing his MA from Harvard, because the practice was as a hundred years thereafter The same thing was no doubt e of another Adams named Samuel, who got his Master's from the same school the same year. John Hancock, while not so educated as the Adams cou ins won an AR from the same chemil, and it is almost certain

What was true of Hamard was which produced a Thomas Jefferalled the Hippocrates of Pen sylvania"). Yale, which graduatby William Paca: (All these men here mentioned, incidentally were signers of the Declaration of Independence)

Emphasis was on Latin, but by no means to the exclusion of other very properly, as the key to much other learning; moreover, it was mental embellishment and hall mark of culture and cultivation But students were also well vers - arithmetic, algebra, geometry, physics, and in grammar, rhetoric, and logic, Ethics, too, or moral philosophy, was part of the course they must run. But language was deemed essential Refore entering college at all, the colonial student was expected to have had four or five years in a preparatory school. And what preparation' They were expected to talk in Latin before they even entered college; and thereafter some of their classes (including mathematics!) were conducted in that language. Greek, too, and Hebrew, were also much studied.

The Reverend Cotton Mather set forth the requirements for admission to Harvard thus "When scholars had so far profited at the grammar school that they ould read any classical author into English, and readily make and speak true Latin and write it in verse as well as prose, and perfectly decline the paradigms of nouns and verbs in the Greek tongue, they were judged capable of admission."

Similar requirements are listed in New England's First Fruits & This was a little book printed largely for circulation in England. It was designed primarily to persuade people to help the colonists with benefactions for their public efforts, and to encourage emigration - what we would now call a promotion piece. It laid great stress on education, and a description is given of a graduation exercise. The students, it says, must have "kept their Public Acts in former years" - that is, they must have carried on public disputations in extemporaneous Latin even in their undergraduate days; and it says they must also have performed two exercises during the graduation procedures.

which exercises "were Latin and

"I repeat," he says, "you will Greek orations and declamations, and Hebrew Analysis, grammatical, logical, and rhetorical, of the Psalms.

Legacy from Scholasticism

All this was the eighteenth century legacy from the Scholastic method of education, which began in the universities of Medieval Europe and which, modified and adapted, was generally practiced in American colleges and universities well into the early decades of the nineteenth century. The key word here, of course, is "method." It is not asserted that colonial education was Scholastic By colonial times Scholasticism as such was long since dead, but the so-called Public Act or extempore disputation in Latin contributed importantly to the making of the colonial elite.

Scholasticism, much and properly condemned during the great times of the Renaissance, and today one with Nineveh and Tyre, was nevertheless a great stepping stone in man's long search for knowledge. Involving as it did a broad acquaintance with lanthe principles of science as far as they had been apprehended scholasticism was the foundation of education as originally laid down by Anicius Manlius Roethiestablished the so-called invade. to round out. The Seven I beral

Fr. James J. Walsh, was to

With that glowing period of libcame to an end by having its aims appropriated and largely realized Rut the methods what we may call the machinery, of the Scholastics was carried over Despite the obloquy and scorn by the titans of the Renaissance. these methods became a useful if not a vital tool in the development of the New Learning; and as a result the Latin disputations we have noted helped form the minds and extend the knowledge of scholars in all parts of the Western world. Transplanted finally to the developing culture of a new continent, they were vastly important in setting the mental and spiritual patterns. political philosophies, of our own

colonial ancestors The Reason for It

But method aside, what were they taught, those grandfathers of our grandfathers? To explain the pattern of their lives their willingness to make sacrifices to suffer. - in the case of fifty-five. to sign their names to a doct ment which, had the Revolution failed, might very well have led to their execution as traitors to explain such attitudes it is not enough to say that they were equipped to belabor a Latin svilogism on Commencement day. That kind of logic can be sterile and meaningless. The men who wrote the Virginia Bill of Rights and the various other expressions of liberty that preceded the Declaration of Independence, as well as the Signers themselves, had been nurtured on something much more substantial than theologic or philosophic disputation. As debaters with a competitive flair motive would not be built for fain conclusions about the notice

ployment of a sophistry to score a point: but when the cards were down they were grounded in convictions that were supported by

something far more fundamental. They studied such day-to-day practical things as arithmetic, algebra, and geometry, such horizon-pushers as astronomy, such mind-trainers as logic, such vision - stretchers as philosophy such conduct-governors as ethics; such stimulators as theology; such broadeners as science; such deepeners as religion, such stabilizers as history, such illuminators as literature. And in all this they were seeking knowledge for its own sake - but also for the of it. Thus under the Thesis Phy sicae in one college we find them debating the qualities of air and of gasses, the properties of what the effect of light on vegetationand the use of gypsum as a for-

The Mathematics of Evil cussed the properties of spirit that the existence of spirit is istence of matter! And do you imagine that farmulture? There are now a little in 1935. While the farms go down

It seems that the farmer is the most under - rated and over-regulated creature in America.

And while all taxpayers -farmter than \$150 per year to finance the government farm program, most from an end to that system. Once agriculture is part of the free enterprise system again, farmers will be free to compete, to grow, to prosper - without medding planners to tell them what to do.

Potential The capable farmer will regain

his self - respect - he'll no longer have to defend, or apologize for, his subsidies. And he'll undoubtedly make more for himself - as he competes to better serve the American consumer.

The fair and just private enterprise system will weed out those who should not be farming in the first place. They can then find work in more productive areas, where their talents will earn them more, and where they will contribute to our standard of living.

As a matter of fact, since the total number of farms will go down, the Department of Agriculture will undoubtedly be needing more employees. And who would be better qualified than a farmer that couldn't make a go of his farm?

Carlton ANALYSES OF THE SMOKE OF SAMPLES OF CARLTON CIGA-RETTES ARE MADE PERIODICALLY BY AN INDEPEND-ENT RESEARCH LABORATORY. ANALYSES DURING THE MOST RECENT TEST PERIOD PRIOR TO THE MANUFAC-TURE OF THE CIGARETTES IN THIS PACKAGE AVERAGED: NICOTINE 0.4 MGPER CIGARETTE *SMOKE COMPONENTS COMMONLY BUT INACCURATELY CALLED "TAR". Look again.

This is Carlton, the unusual new cigarette from The American Tobacco Company. Everything about Carlton is selected and crafted to produce this one result: [Low "tar" and nicotine, with real smoking pleasure.] It is so low in "tar" and nicotine we print test results on all packs and cartons. Carlton has a distinctive blend, high porosity paper, special air vents, and a new "flavor filter" with activated charcoal which actually enriches the taste. • We believe you'll want to try Carlton. We also believe you will find it a new and pleasurable smoking experience. Give Carlton the time it takes you to smoke a carton.

See for yourself.

28 S. Tejon. adv. sert. it does directly after West's overcall, will acquaint South with the fact that the opener has a sound hand.

> East's desire to take a sacrice with favorable conditions of vulnerability is laudable, but an immediate leap to five diamonds not the best strategy. He should make allowance for the possibility that the opposition may eventually buy the hand. in which case it may prove essential to get West off to the right lead. For defensive purposes then, it is suggested that East first bid four hearts with the intention of retreating subsequently to diamonds.

South was deprived by East's bid of the opportunity to check back for aces. In view of his partner's jump raise, however, he felt that a slam undertaking was a reasonable venture and he proceeded directly to six

West contemplated his opening lead at great length. If he could put his partner in at trick one, a club return could be ruffed for the setting trick. Inasmuch as East had jumped in diamonds, it appeared high ly probable that he had the king. South was marked with at most a singleton in diamonds for his slam bid, so West undered his ace. The first trick was taken by declarer's blank king and, after drawing trump, he cheerfully conceded a heart trick to the opponents.

In view of the somewhat blind nature of the bidding. West perhaps should not have been so panicky in mapping his defense. He might have made allowance. for the possibility that a club ruff was not the only way to defeat the contract. A heart bid by his partner would, of course, have averted disaster for, even if West decides to cash a dia-

peace of mind

When you pre-arrange the funeral services, you have peace of mind because you know everything will be taken care of exactly as you wish and because you control the cost. Those left behind have peace of mind because you made all the decisions and they know everything was arranged according to your wishes. If you would like to find out more about preneed planning, please feel free to ask our counsel. No obligation, of course,

Komodo dragons, a form of izard which can grow to be 16 feet long and weight 300 pounds. are believed to be descendants of Australian dinosaurs.

What every wife should know

. . . about her husband's life insurance. How many "I don't know's" would you score on this test?

1. How many policies does your husband own? Does he have group insurance where he works? How much is the total amount of protection provided?

2. Are any of his policies just temporary? How old will you be when this temporary protection terminates?

3. Is your husband's life insurance coordinated into a program? Is there a part ear-marked to pay off the mortgage; to educate the children? How much income would it pay now? How long would it last?

It makes good sense for a wife to be well informed about her husband's insurance. Her security is the number one objective and it's through her budgeting skill that money can be set aside for the future. If you and your husband would like to review any of these questions, just call the Man from Manufacturers. You'll find him a competent and friendly
